

**Vigilant for Basics Features**

## SIZE & COLOR MATRIX

Vigilant Size & Color Matrix improves inventory reporting and sales analysis by allowing any business in need of tracking by the sizes and colors of their merchandise to do so efficiently.

Features of Vigilant for Basics Size & Color Matrix:

- A standard or custom matrix can be set-up
- A time saver when setting up inventory using a matrix because only one matrix needs to be set-up for a range of sizes and colors
- Can be used for both purchasing and selling product styles
- At the Point of Sale, the size and color of the style (items) sold or a listing of all sizes can be printed
- Sales and purchase history are complete and available for management reporting, analysis and interpretation
